

Crowded Church Hears Two Eminent Divines

Social Evening on Monday
Also Well Attended and
Most Enjoyable.

The splendid congregations that met in the United Church on Sunday to hear the Rev. A. J. Bruce and the Rev. Dr. Ferguson, greatly enjoyed the addresses given. It was a large congregation that assembled in the Church for the morning service.

Mr. Bruce soon captured the attention of the congregation with his description of conditions in China and of the great work the Church is doing for the people.

Mr. Bruce has been 14 years in China, and his appreciation of the quality of the Chinese as courteous, kind and honest was very fine.

The Chinese do not want Christianity forced upon them, but they want a Christianity with the spirit of Jesus in it.

Their impression of the Christianity they have seen in this country, Britain and America has led them to think they want something more approaching the earliest disciples than that which is exhibited by many professing Christianity in these lands.

The Chinese are earnest, true, sincere, and when they accept Christ it makes a tremendous difference in their lives and mode of living.

It was most practical address and one felt they were proud to know the United Church of Canada had such men carrying on its work in the far off lands.

Mr. Bruce gave a very interesting address to the scholars in the Sunday School.

In the evening the Church was filled to capacity, chairs had to be brought in to accommodate the congregation.

The Rev. Dr. Ferguson delivered a splendid address and made clear the great work of the United Church in Canada.

The congregation were made to feel they belong to an organism that is truly Canadian with a world outlook.

On Monday the congregation met in a social capacity. There were many present and all enjoyed thoroughly the songs, recitations and speeches.

It was a fitting climax to the wonderful services of the Sunday. The ladies supplied refreshments at the close.

The Revs. W. T. Young, J. Oliver and Messrs. Holmes and Fairhurst gave some sensible advice on how to carry on the spirit of the United Church in our own community.

All the services were a real inspiration and most helpful and stirring.

Messrs. W. Haysom and T. Phillips sang, Evelyn Price recited and Mr. J. Emmerson gave an organ recital.

Crude petroleum production in Canada during 1924, as reported by the Dominion Bureau of Statistics, amounted to 160,773 barrels valued at \$167,400, while during the preceding twelve months 170,169 barrels valued at \$522,018 were produced. Drilling activity, continued in the Centre-Sweetgrass and Wat'right fields of Alberta. In Ontario, the production from the Runy' wells of approximately 3,000 barrels, encouraged the drilling of several more wells to penetrate the Trenton formation.

Program Arranged For The Community Concert

A very good response has been accorded the sale of tickets for the Community Concert under the auspices of the local branch of the Women's Institute which takes place in the Grand Theatre on Wednesday, December 2nd. According to information supplied The Journal about half of the seating capacity of the theatre was sold last week, and with two weeks elapsing before the date of the concert, everything points to a packed house for the occasion.

The following tentative program has been arranged, which assures all who attend a splendid evening of entertainment:—

Fancy Ditts. Fancy Dances.
Numerous Readings.
A One Act Comedy
by the Coleman C.G.T.
Vocal Selections
by members of the Coleman Glee Society.
Violin Solos. Cornet Solos.
Piano Solos.
A Humorous Sketch
by the Coleman Dumbells.
Solos, by your favorite singers.
Instrumental Quartettes
by members of the Coleman Band.
Other Music, Vocal and Instrumental.

The production of quartz in Canada during 1924 totalled 150,896 tons valued at \$323,156, as compared with 264,076 tons valued at \$569,250 in the previous year, according to the Dominion Bureau of Statistics.

Card of Thanks

Mr. and Mrs. Percy Unsworth and Mrs. Harry Smith wish to thank their many friends for the sympathy, kindness and help extended them in their recent bereavement. Also for the cars and many beautiful floral tributes.

NOTICE

TO R. D. JAMESON OF COLEMAN
TAKE NOTICE that an action has been commenced against you in the District Court of the District of Macleod by Charles Nicholas of Coleman for the sum of \$39.90 being the balance owing you for goods and merchandise and the sum of \$17.99 has been paid into Court by the Garnishee.

AND FURTHER TAKE NOTICE that unless you file with the clerk of the Court at Macleod within 30 days from the date of the publication of this notice a Dispute Note the Plaintiff shall be at liberty to enter judgment against you for the amount of his claim and costs and the money paid into Court shall be paid to the Plaintiff in reduction of his claim and costs.

Approved, (Sgd.) A. M. MacDonald, J.

NOTICE

The annual meeting of the Coleman Crystal Ring, Limited, will be held in the Council Chambers, Coleman, on Thursday, the 26th day of November, 1925, at 8 o'clock p.m.

R. F. BARNES, Secretary.

LETTER OF THANKS

To The Electors of Federal Riding of Macleod,
LADIES AND GENTLEMEN:—
I trust that you will all accept my hearty and sincere thanks for the splendid support which was accorded me during the late federal elections. I realize many of you had aside your past political affiliations for the purpose of voting for me. I will ever remember the kindness with which I was received at all the places which I was able to reach. Unfavorable weather and lack of time prevented me from getting in touch with many of the electors.

I hope to be able to meet you all again on some future occasion and would ask you to let me hear from you, to accept my hearty thanks and good wishes.

Yours sincerely,
JOHN HERRON
Pincher Creek, Nov. 17, 1925.

Winnipeg Maroons Are Picked to Win the International League

Have Shep., Wasmie, Daly and Joe Thorsteinson of Last Year's Coleman Tigers on Team.

WINNIPEG, Nov. 13.—The Maroons, Winnipeg's representatives in the International Hockey League, will be composed of a batch of stars who have been representing Coleman during the past two seasons. Added to this galaxy is Art Somers, late of Fort William and Falcons.

The team has been working out for nearly two weeks now, and the majority of the members are nearing perfect physical condition. Though the schedule has not been drawn up yet, it is expected the first game will be played about December 1.

Many fans who have visited the Amphitheatre of late have been impressed with the form shown by the squad that has been working out for places on the Maroon team under the wing of Jack Hughes; who will act as playing manager.

Three Additions

During the last few days the squad was reinforced by the addition of Joe Thorsteinson, Frank Shephard and Nick Wasmie, who returned from Port Arthur, where they were slated to play this season. Their youth and ability should be of great value to the team when they get into condition. These lads played for Coleman last season.

The team will be picked from the following players, who have been working out regularly: Charlie Gardner, goal; Bill Borland, Connie Johnsonson, Pete Speirs and Dan Daly, defence; Hughes, Shephard, O'Meara, McMunn, Wasmie, Somers, Thorsteinson, Wally Fridlington and "Smokie" Harris, forwards. Now Cec. Browne is here from Regina to join the team.

The club will likely carry 12 men, seven forwards, a goal keeper and four defence men. As it looks now they will have Hughes and Shephard on left wing; O'Meara, McMunn and Wasmie on right, with Somers and Thorsteinson in center.

An Ounce of Prevention

All over the world a new type of hospital is being built—the psychopathic hospital, where people who have mental troubles are studied and treated.

The very words, psychopathic hospital, indicate the new theories of medical experts—that mental troubles may be studied and successfully treated. A psychopathic hospital is also an aid in prevention. Prevention of the bad mental habits that frequently lead to insanity is part of the field of the science of mental hygiene.

The best time to prevent traits which in later years develop into forms of insanity, is in the very earliest years of childhood. Good habits of thinking are as easily formed as bad ones. Discipline, self-control, courage, affection and loyalty, the strength of character and the qualities of personality that make for contentment and a happy useful life can be developed in children by curbing the bad and encouraging the good by personal example and precept. As in everything else, an ounce of prevention is worth a pound of cure.

Registrations of passenger automobiles in Canada numbered 678,975, of trucks 55,572, and of other motor vehicles 22,574 giving a total of 657,121 registrations in 1924 as compared with 586,850 in 1923.

Buy at Home—Support Home Hockey Talent.

There is a very persistent rumor that efforts are being made to induce Coleman's last year junior hockey team to go in a body to Kimberley and play there this winter. It is well known in certain quarters that a member of the team, who is now residing at Kimberley, came to Coleman a short time ago and held out certain inducements to several of the members of last year's junior team, provided they would make the jump to the B. C. town, but so far as The Journal is aware, nothing definite has been done in the matter.

During the past two or three years the junior team in Coleman, owing to senior hockey, has not received anything like the support it merited. Last season these boys went through their entire schedule without a single defeat competing against intermediate teams, and yet they were accorded very meagre support, most of the time at home playing to empty seats. Notwithstanding this indifference on the part of Coleman hockey fans, the boys stuck together and played bang-up hockey. Every exhibition staged by them was fast and clean, and were superior to some of the senior games witnessed in the local arena last winter.

Would it not be sports and praiseworthy for hockey fans in Coleman this year to line up solidly behind this fast-stepping aggregation of home-bred and give them every encouragement and support? They have battled along valiantly on their own during the past three or four years, and have made an enviable reputation as one of the best junior teams in Alberta. With the knowledge that Coleman hockey fans were behind them this season in intermediate hockey, they would in a couple of seasons likely develop into Alberta's premier senior hockey aggregation.

With senior hockey in bad odor locally, this is an opportune time for Coleman fans to show their appreciation of our home talent by uniting this year in supporting them.

Ford Motor Company Makes Record Output

Edipsing all October monthly production records in its history, the Ford Motor Company of Canada, Limited, produced a total of 9,200 finished cars during October 1925, an increase of 4,172 over the previous high month, October 1923, when 5,028 cars were manufactured.

Of the present month's production, more than 5,000 were for export. In October 1923, 3,046 were sent abroad. The figures given are for the main plant at Ford City, Ontario, and the eight assembly plants throughout Canada.

Ordinarily October is one of the driest seasons of the year in the automotive industry generally. Increase at this time is based on splendid crop conditions, officials say, coupled with the popularity of new models.

In 1924 the 11 automobile factories in Canada produced 98,245 passenger cars, 18,043 trucks and 16,172 chassis, a total of 132,460 cars with an aggregate selling value of \$35,240,418; this was a decrease of 10 per cent from the 1923 production of 147,302 cars valued at \$96,414,176, according to a statement issued by the Dominion Bureau of Statistics. Raw materials costing \$4 millions were used.

Rhondha Welsh Male Singers Coming Jan 1

The Same Concert Party That
Appeared Here Last Winter

Hundreds of Coleman people and many others in The Pass who had the pleasure of hearing the Rhondha Welsh Male Singers about a year ago, will be overjoyed to learn that arrangements were completed this week whereby this unequalled aggregation of soloists will again favor Coleman with a visit during their tour of Canada this season.

Mr. J. Cogrove, the advance agent for the company, was in town this week and booking arrangements were completed to have the company appear here on New Year's night, Jan. 1st, in the Grand Theatre.

Coal Processing

A Demonstration Plant is Now
Being Erected at Drumheller.

Favorable progress is being made on the erection of the coal processing plant of the Lignite Products corporation, at the Midland collieries, Drumheller. This is a new industry in this country, and the unit at Drumheller is something of an experiment, following careful tests.

The unit being erected will be a thirty-ton unit, while each ton of Midland coal will produce 12 gallons of crude oil, seven thousand cubic feet of gas and seven gallons of ammonia. Of course there are many more by products, but the first unit will concern itself with processing crude oil, gas and ammonia from the coal. Gasoline, kerosene and other oils can be refined from the crude oil, and a refinery will follow immediately the capacity or gallonage of the crude oil reaches the mark which will make a refinery a paying proposition.

Use Gas For Fuel

The gas will eventually be used to provide heat for power house and other industries, while when a sufficient quantity is reached, Drumheller itself will be heated economically and domestically by gas. Coal black, which is used in automobiles, and in many other ways, can be made from the gas.

The residue coal is one of the most important parts of the processing operations, as it is a real hard coal, containing 30 per cent more heat units, or B.T.U.'s than the raw coal, a factor which solves competition, freight rates and other obstacles in the path of the Red Deer valley coal. Blacksmith coal, railway coal and the finest coal for industrial, as well as domestic purposes, are found in the char left after the crude oil, gas and ammonia have been processed from the raw coal.

The engineers expect to have the plant in operation in six weeks. Following a successful demonstration the operations of the company will be extended.

"How did you catch your cold?"
"Got Chille on the radio last night."—Puppet

Poor Pop!

A mother said to her little son:—
"Why can't you be a good boy, dear?"
He replied:—"Well, mother, I'll be good for a nickel!"
Mother:—"For shame, son, you ought to be like your father, good for nothing!"

"Don't forget the Big Barker to be given by the Rebekahs on Dec. 12."

Funeral Services Largely Attended

The funeral of the late Mrs. Annie Unsworth, which took place on Friday afternoon last from the residence of Mr. and Mrs. P. L. Unsworth, Main street, was largely attended by Coleman citizens. A short, impressive service conducted by the Rev. D. K. Allan was held in the home at 2 p.m.

On leaving the house the cortege was preceded by the Town Band and in the procession following the hearse, besides the immediate members of the deceased lady's family, were representatives from all the various business, professional and fraternal bodies in Coleman, as well as representatives from adjoining towns, who came to pay their last respects to the departed.

The local Rebekah lodge took charge at the graveside and conducted their impressive and solemn burial service.

Many beautiful floral tributes testified to the high esteem in which the deceased lady was held throughout the community.

Under The Chestnut Tree

A ducky son of Alabama was busily engaged in a coolie hunt. When asked by a sergeant what he was doing, he replied:

"I've huntin' fo' dem 'arithmetical bugs.'"

"What do you mean, arithmetical bugs? Why do you call them that?"

"Cause dey adds to ma misery, dey subtracts from ma pleasure, dey divides ma attention and dey multiplies like de dickens."—Pittsburg Chronicle Telegram.

A Welshman was sitting with his girl close to a peanut stand. "My! don't those peanuts smell good," she asked. Always ready to accommodate, George says: "We'll move over a little closer."

Biggs: "Look how kind that fellow is to his dog."

Biggs: "Yes, he's an evolutionist. He remembers how he was a dog once."

"Very, very, bad, sir," said the doctor, "I greatly regret to tell you your wife's mind is completely gone."

"Well, I'm not surprised, Doc," returned the husband, "she's been giving me a piece of it every day for the past fifteen years."

Fussy Lady (sighing):—"If you were a gentleman you wouldn't smoke in this waiting room."

Casey:—"If yez wor a loidy ye'd sit further away."

"If you were my husband I'd poison you!"

"Faith, mum, if yez wor me wife—O'd take it!"

Colored brother to his pastor, the Rev. Protestant Johnson: "Brutha! Johnning, dah's one problem I can't figure out."

"What's yo' problem brutha?"

"What's ah gwine to do when ah gets to heaven—how's ah gwine to get mah shirt on oveh mah wings?"

"Young man," was the solemn answer, "Dat ain't no problem—yo' problem is how'll yo' get yo' hat on oveh yo' horns!"

A Big Order

An old colored man was arraigned before a justice on a charge of assault. During the proceedings the judge asked him if he wanted a lawyer appointed to defend him. "No, no, judge," he said, "I don't want no lawyer, but I reckon I would like a couple of good witnesses, if you got 'em."

Order from your grocer his best tea and he'll usually send "Red Rose."

RED ROSE TEA "is good tea"

The same good tea for 30 years. Try it!

A CUP OF HOT BOVRIL

is a fine "PICK ME UP"

SOLD IN BOTTLES ONLY

Cultivate the Christmas Spirit Now

The approach of the Christmas season brings to nearly everybody thrills of pleasurable anticipation. It is a time of happiness and goodwill all round when old disappointments, and enmities, and selfishness are relegated to the background. Already people are busy planning and making gifts for relatives and friends, and it is to be hoped, with a thought for those who are less fortunately placed in life than themselves.

But there are certain groups in our population to whom the coming of Christmas means hardest work and longest hours of labor during the year. Chief in this group are the employees of the post office throughout the country. Persons who seldom write to relatives and friends for the year, do so at Christmas time. Millions exchange Christmas cards and other forms of greeting. Parcels containing gifts pour into the post offices in their thousands. And the postal employees have to receive, sort and despatch it all, and in the midst of it, along rural routes, deliver it.

Most people time the mailing of their cards of greeting and gifts so they will arrive at their destination one or two days before Christmas, or possibly on Christmas Day itself. The inevitable result is such a congestion in the post offices and railway mail cars that it is a physical impossibility to handle all the business within the short space of time before Christmas Day, no matter how tremendous an effort is put forth by the postal clerks. Thus many gifts intended for Christmas are not received by those to whom they are addressed until Christmas is past and gone for another year.

A little more planning, and thoroughness, and usefulness in behalf of the post office staff, displayed by people generally, would greatly improve this condition. By mailing Christmas gifts well in advance it may be that they will be received some days before Christmas, but, even so, is there not a greater thrill in the arrival of the first gift than in the case of subsequent ones? And is not a gift received before Christmas a happier one than it is delayed and not received until Christmas and its festivities are past?

Another group who find the week preceding Christmas a time of strain, resulting in ragged nerves and sharp tempers, are the clerks in stores. Many of them after the strenuous year have a rush find it necessary to recuperate in bed instead of being able to enjoy and join with others in the joy of the year. Their lot can be made much easier by early shopping. Therefore, in your Christmas activities, give a thought to their comfort and happiness.

In order to be in a position to mail your Christmas parcels early, it is necessary to shop early. Thus both these groups of workers will be helped to give you and the public generally better and more efficient service. Just a word in season—bring your Christmas unselfishness into action well in advance of Christmas Day.

You stand to gain by it in every way. Remember the old saying: "The early bird catches the worm." Well, early shopping means that you have the pick of the goods offered for sale, while the late shopper has to be content with what is left over and previously rejected by the more alert and discriminating shopper. Early shopping gives time for suitable selection of gifts best designed to meet the needs and taste of the person to whom they are intended. It means more pleasure in getting them suitably inscribed with appropriate messages and neatly and properly packed. And an attractively tied or packed parcel adds much to the pleasure of the one who receives it. It conveys an impression of thought and real love on the part of the sender.

Finally, in mailing, observe the instructions of the post office authorities. Put the postage stamp in the upper right hand corner; the address in the lower right hand corner; place your own name and address as sender in the upper left hand corner; if the parcel contains fragile articles, mark it boldly "Handle with Care" or "Fragile." If you are attaching any Christmas seals or stamps of greeting, place them on the back of the letter or parcel, but not on the same side with the address and postage stamps.

General observance of these little things will greatly expedite the handling of the Christmas rush of mail matter, insure the proper handling of your parcel, and by speeding up the whole service and lightening the labor of the postal employees result in what you yourself desire, the best possible service.

"Please, mum, the stove's gone out."
"No, Nora, you don't mean the stove. You mean the fire's out."
"Indeed I don't. The instalment man just came and got the range!"

A Massachusetts farmer in 1790 spent only \$7 to maintain his family and operate his farm, all other essentials having been made on the farm.

Rescuee.—Hold on tight, Miss; hold on tight! Maud in distress (a school teacher).—Don't say that, say "Hold on tight!"

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children of all ages of Constipation, Flatulency, Wind Colic and Diarrhea, allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

New Types Of Aeroplanes

British Government Has One That Can Be Converted Into a Yacht

A French engineer, Dr. de Monge, has invented a new type of aeroplane, which can be driven by ordinary automobile engines. The plane has a fuselage body. The wings, tail, and rudder are attached to the front wing by steel rods only, and the pilot passenger sits in a kind of cockpit in the centre of the fuselage between the two nine horsepower engines that are used. The plane is of course much lighter than the usual type, and it is said that it can be stored with fuel enough for a flight of nearly 3,000 miles. The engine burns only a gallon of gasoline for every thirty miles of flight, and drive the plane easily at a hundred miles an hour. The British Government has built another experimental aeroplane which has light masts and sails in addition to its aerial equipment. When it has come to land into water the sails can be spread and the plane converted into a sail yacht. The plane is all metal, and a German engineer, Rohrbach by name, is said to have designed it—Youth's Companion.

Five for catarrh when used in the nose and vapors inhaled.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately into the congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly. Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh of the nose, hay fever, etc.

Just rub Vicks over throat and chest, and inhale the medicated vapors. It quickly loosens up cold.

VICKS VAPORUB
OVER 21 MILLION JARS USED YEARLY

No Trouble To Make Payment

Danish Settlers Pay \$2,000 On Purchase Price of Farm.

"You want us to make a payment on the farm now."
Yes, that is the usual way of handling land deals of this kind," said the smiling land agent.
"All right" will give you some now," and without any more ado the purchaser reached among the matches and drew out two little wads of paper which he laid on the desk.
These little wads of paper were one thousand dollar bills.

This little scene took place in the office of the Western Colonization Company in Saskatchewan. The thousand dollar bills were paid over by two Danish farmers who were brought out to this country to take up land, and who purchased a section twelve miles from Saskatoon. The agent was Alex. Fesperman, a former Danish immigrant.

She Could Hardly Do Her Housework Nerves Were So Bad

"Mrs. T. M. Parks, Concord, Ont., writes:—I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw

recommends, so I tried a box, and after taking the second one I am now feeling like a different woman."
This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Marjorie: "Dorothy is not very clever, is she? The cakes she served at yesterday's tea were as hard as rocks."
Anita: "You bet she's clever; her husband's a dentist!"

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Gray's Worm Exterminator.

Biting pharases are never very pleasant. They are particularly unpleasant when uttered by a toothless cynic.

There is an obelisk in Egypt that has never been raised. It weighs 1,168 tons.

Entertain In London

Hon. P. C. Larkin and Mrs. Larkin Receive Notables at Dinner Party

Hon. P. C. Larkin, Canadian high commissioner in London, and Mrs. Larkin gave a dinner party recently at their residence at Lancaster Gate. Among the guests were: Hon. Alexander B. Houghton, United States ambassador to Great Britain, and Mrs. Houghton; Rudyard Kipling and his wife; Hon. A. Chamberlain, British foreign secretary, and Mrs. Chamberlain.

A man who looks only at one side of a thing imagines that every other man does the same thing.

Man is the animal that uses a cook book and employs a physician.

SUNDAY SCHOOL LESSON

NOVEMBER 22

PAUL BEFORE FELIX

Golden Text: Herein I also exercise myself to have a conscience void of offence toward God and men alike. Acts 24:16.
Lesson: Acts 23:24-27.
Devotional Reading: Psalm 86:1-17.

The Case Explained and Illuminated

The Case Against Paul Presented by Tertullus, verses 1-9.—See The Historical Background. Lydas had charged Paul's accusers to appear against him before Felix. Within five days the high priest Ananias with a deputation from the Sanhedrin arrived in Caesarea. Paul was summoned to trial. Tertullus, the advocate whom the Jews had engaged, presented their case against him. Before the Roman law, being the leader of the sect of the Nazarenes, an offence against the law of Moses; and defiling the temple—an offence against both the law of Moses and the Roman law, since the latter protected the Jews in their worship. When Tertullus concluded his speech, the deputation of Jews enthusiastically endorsed all that he had said.

"We all abhor faction unless it be to us or from us, and then we call it by another name" (John A. Shedd).

Radium Clock Should Run Indefinitely

Perpetual motion has been a long sought goal and while many ingenious devices have resulted from cleverness along this line, all have failed to prove practicable. But recently there has been invented a device which, while not a timepiece, is called a "clock," which scientists declare should run indefinitely. This is known as the "radium clock." As its name suggests, the motive force of the radium clock is atomic energy.

There is no poisonous ingredient in Holloway's Kidney Remedy, and it can be used without danger or injury.

Got Radium Instead Of Radio Parts

Woman Accepted \$25,000 Package Thinking Was Her Own Radio. Fifty thousand dollars worth of radium went astray because the King's County Hospital, New York, hired a new automobile driver just when Mrs. Charles L. Polman, of Brooklyn, expected a package of radio parts from a store. The similarity of the words radio and radium caused all the trouble.

Mrs. Polman's husband is the home and radium hospital of Dr. Chester Ford Duryea. Dr. Duryea had used his radium at the hospital and it was to be returned, according to custom, under guard, in an ambulance.

The new driver supposed Dr. Duryea lived next door to his radium hospital and left the package there. When Dr. Duryea arrived home he called the hospital and was told the radium was delivered.

Six hours later, the driver, off duty, was found and explained Mrs. Polman had taken the radium from the hospital, believing it contained radio parts. She had not opened it.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is the advance of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Report Good Sockeye Run

Reports received by the department of Marine and Fisheries are to the effect that a good run of sockeye salmon occurred this year for the first time since 1909, in the Stuart Lake district at the headwaters of the Fraser River, B.C. The advance of sockeye at this one important spawning area of the river during the past 16 years is due, according to the department, to the rock slide which occurred in Heil's Gate Canyon in the lower Fraser in 1913. This slide completely blocked the river to the ascent of salmon.

Keep Minard's Liniment handy

Prince Took Part In Sports British bluejackets who were seeing the Prince of Wales home from South America aboard the Reptile displayed their readiness in a series of comical stunts which they gave on the quarter deck. In one of these the Prince himself appeared with great success in the role of a woman.

NO DECISION IS YET REACHED ON WESTERN RATES

Ottawa.—Decision by the board of railway commissioners as to whether the recent order signed by Chief Commissioner H. A. McKewen calling on the railways to put into effect immediate rates on grain and other moving westward as those now effective on these commodities moving east, shall be rescinded, is not likely to be reached for two weeks at least.

Assistant Chief Commissioner McKewen and Commissioners Boyce and Oliver, who heard the application for rescission last month, together with Chief Commissioner McKewen and Commissioners Lawrence and Vlen, are at present in the west conducting sittings of the board. The three commissioners now in the prairie provinces are not likely to return to Ottawa until November 28.

In the meantime reduced rates on grain and flour moving eastward are now in effect in accordance with Chief Commissioner McKewen's order, which was supported by Commissioner Oliver.

Mummy Of King Tut

Removed From Tomb Where It Had L lain For Centuries
Cairo, Egypt.—The inner coffin of Tut-Ankh-Amen's sarcophagus, containing the mummy, has been removed from the Pharaoh's tomb to that of Set II, nearby, for examination.

The coffin which is of human shape, with a painted face believed to represent the features of the young king himself, is one of the most beautiful pieces of work discovered.

The mummy, however, was found to be adhering to the sarcophagus, owing to the humidity poured over it in ceremonies whereby the Pharaoh was dedicated as a god.

All those present at the removal of the sarcophagus from the tomb were greatly impressed with the richness and majesty of the art. Several days of careful work will be required to detach the mummy safely from the adhering shell.

British Submarine Lost

Crew of Four Officers and Sixty-Four Men of Other Ranks Lost Lives
London.—The admiralty announces that the submarine monitor M-1 has not been seen since the diving machine sailed south of Start Point, in the Orkney Islands. Four officers and 65 men of other ranks lost their lives.

The M-1 is one of the largest and newest submarines in the British navy, the distinguishing feature of her class being that they each carry one 12-inch gun, which is understood to be loaded at the surface, and then fired after the sub is submerged to 12 to 20 feet, periscopes being used for sighting. These boats were laid down under the war emergency programme of 1917.

The Washington naval treaty forbids the building of any more submarines carrying 12-inch guns.

Britain's Heavy Task

Carrying the White Man's Burden in the Near East
Montreal.—Speaking on the development of the Near East, the British ruler, or through mandatories from the League of Nations, Sir John Power, Bart., member of the British House of Commons for Wimbledon, Surrey, before the Canadian Club, emphasized that Great Britain was in oriental lands "by force of circumstances and the will of God." He outlined the tremendous improvements in government and in ordinary life under British jurisdiction, and indicated that the British people regarded the task in the Near East as part of the mission of civilization and as a portion of the "white man's burden." Results justified the empire's effort.

Nation-Wide Smuggling

Believe Merchandise Is Being Smuggled Into Canada in Large Quantities

Montreal, Quebec and Toronto retail merchants believe there is in existence a nation-wide ring of merchandise smugglers, who, ignoring the Canadian tariff gate, are responsible for the mysteriously increasing supply of foreign-made goods with which they say Canadian merchants have to compete with in the domestic market.

"This is one of the most vital matters that ever confronted the business men of Canada," said M. Lapointe, secretary of the Retail Merchants' Association. "It is a challenge to the whole fabric of legitimate commerce and to the efficacy of our tariff protective system."

W. N. U. 1008

Proposes To Reduce Army

France Will Make Statement After Locarno Treaty Is Signed

Paris.—As soon as the Locarno Treaties are signed at London the French Government proposes to make a statement of reduction of armaments which will leave France as disarmed as Germany is. It probably will be announced between the signing on December 1, and the meeting of the League of Nations conference at Washington at Geneva, December 8.

The French committee of national defence under President Paul Boncour, the Socialist, already has discussed a reduction of the army and navy with the staffs of these, and it is the present radical government retains its power it will empty the barracks in France and leave a standing army only big enough to handle the colonies, these being largely native troops.

The French wish to set an example at Geneva and give the League of Nations the credit. Hints of possible disarmament conferences at Washington always have been received quickly in France and the speed with which the French are preparing to announce their disarmament is an oblique shot at President Coolidge's suggestion.

Taking Great Airman

Home For Burial

Body of German Ace Removed From France to Berlin

Berlin.—Baron Manfred von Richthofen is coming home to his rest in France beneath the earth which he consecrated with deeds of chivalry ere he fell in flames, they are bringing him back to Berlin for a military funeral before burying him here.

Capt. Baron von Richthofen was killed in battle fighting two British planes, while three miles away from twenty of his comrades were fighting about an equal number of British biplanes. The German ace was hurled by his British foe with the most impressive ceremonies near the little town of Salzig le Bas, in Northern France.

Six British officers acted as his pall-bearers. As the coffin was lowered into the ground great numbers of British planes whirled overhead, the throes of their engines forming the accompaniment to the words of the British clergyman who spoke the Church of England service.

Asked Germany For Answer

Reply to Allies Latest Note Delivered in Rush

Berlin.—Germany's reply to the latest allied disarmament inquiries was delivered at Paris at midnight following an urgent telephone message from Ambassador Hoeschele, which indicated there was immediate delivery of the reply. The Rhineish situation (evacuation of Cologne, chiefly) desired by Germany, would not materialize.

The allied note was in the nature of a final demand of the disarmament of a final demand of the disarmament, problem calling attention of Germany to certain disarmament desires still entertained by the allies.

Will Give Three Scholarships

Four Years' Tuition at McGill Offered by C.P.R.

Montreal.—Competition is made from the office of the vice-president of the Canadian Pacific Railway here that three free scholarships, covering four years' tuition in architecture, chemical, civil, mechanical or electrical engineering at McGill University, are offered subject to competitive examination to apprentices and other employees enrolled on the permanent staff of the company and under 21 years of age, and the minor sons of employees.

Heavy Sentence For Bandit

Pentecost, B.C.—Eight years in the penitentiary and 20 lashes was the sentence given John Ward, confessed Creston bank robber, by Judge J. A. Fortin in county court here. Ward and a companion held up the Imperial branch at Creston on October 21 and obtained \$6,500.

Ward was captured late in the day and \$2,700 of the stolen money was found on him. Ward's companion escaped.

Second Largest Wheat Yield

Canada's total yield of wheat, now provisionally set at 1,000,000 bushels, is the second largest on record for the Dominion.

The previous record (total) was 474,189,000 bushels in 1923.

Was Author of Famous Poem

New York.—Hugh Antoine D'Arcy, famous author of "The Face on the Barbed Wire," died here of heart disease. He was 55 years old.

Well Known Architect

Dies In St. Louis

George Roby Served on Board Which Drew Plans For Old Parliament Buildings at Ottawa

St. Louis, Mo.—George Roby, one of the architects who designed the Canadian House of Parliament destroyed by fire at Ottawa during the war, died Nov. 10 of infirmities attendant upon advanced age.

The dean of St. Louis architects, at Mr. Roby was known, celebrated his 86th birthday on October 19 last.

Born at Manchester, Eng., the super-builder was educated in the Old Country and emigrated to Canada in 1869. He resided in the Dominion for about 20 years and was called to serve on the board of architects which drew the plans for the old Parliament, according to Mr. Roby later moved to Quincy, Ill., being the builder of the mammoth Burlington railroad bridge there.

Undesirable Immigrants

Would Tighten Restrictions To Prevent Entry Of 'Reds' Into U.S.

Ottawa.—Loopholes in Canada's immigration barrier are allowing half-wits and sub-normal mentalities to slip into the Dominion and become absorbed in the population, according to a resolution which was framed at a session of the Canadian Education Association, and which the association will be asked to endorse.

The resolution, which was submitted by R. H. Cowley, of Toronto, a leading educational authority, asks the Federal authorities to tighten its immigration restrictions.

LIVE COMMENT ON SITUATION AT THE CAPITAL

Ottawa.—The political atmosphere will not clear until parliament assembles on December 10 or so, and a question date near that as the election formalities may prescribe. The premier and Mr. Graham, the two defeated ministers who will seek reelection, will not do so until parliament meets, and the inevitable showdown disclosure of the relative strength. While Mr. King's supporters were practically unanimous in counselling the advice of the government facing parliament, the decision of the premier not to seek personal reelection meanwhile has not met with quite the same endorsement. Some express the opinion that he should be there at all, as he could be, but this would necessitate following a course which, in 1921, the prime minister criticized Mr. Meighen for pursuing. If Mr. King wished to avail himself of the Quebec victory the objection would be mounted that apparently it is his design not to go to that province.

The presumption is that parliament will wish to deal with the suspense with as little delay as possible. When the House meets the government's position will be promptly challenged. A day or so of debate, participated in by the leaders, should suffice as a preliminary to the test vote. Thereafter an adjournment will be made without ever the outcome. Parliament will not hang around for Christmas and New Year's, but come back in January and go ahead with the session. With the question of supremacy settled the sessional programme will be very light and confined to essentials. The situation will permit of little else. The desire for another general election is not pronounced, and supporters of the government may cause it to be deferred far, but at the present the prevailing view is that a renewed appeal to the country within a very short time is inevitable.

Alberta Redistribution Problems

Edmonton, Alta.—Alberta redistribution problems are again being grappled with by the legislative committee, of which J. N. Johnston, M.A. for Edmonton, is chairman. Members of the committee are going into the question, with a view to deciding on some scheme for the readjustment of the provincial assets.

Make No Announcement

Winnipeg.—At the conclusion of the two-day session of the directors, executive and members of the "prairie wheat pools here, A. J. McPhail, chairman, said the business had been purely routine and that there was no statement to give out. It was simply a get-together and a round table conference," he said.

Ready For Call

Cairo, Egypt.—Turkish reservists on the Baghdad Railway in Northern Syria have received orders from Ankara to hold themselves in readiness for a call to the colors.

Was Elected President

Conventions of the Saskatchewan C.W.N.A. Meet

Good Attendance at Ninth Annual Convention in Regina

The Ninth Annual Convention of the Saskatchewan Division of the Canadian Weekly Newspaper Association was held at Regina, on Thursday and Friday, Nov. 5 and 6, and was an unqualified success. A large representation of members attended from every corner of the province, and the business sessions proved most helpful. The delegates received an official welcome from Mayor Mason, who handed over the keys of the city. The Saskatchewan Co-operative Wheat Producers gave a luncheon at noon on Thursday, and in the evening the editors were the guests of the Leader Publishing Co. at a dinner. Later the delegates attended a theatre party as the guests of the Toronto-Type Foundry Co. On Friday at noon the Saskatchewan Co-operative Elevator Company entertained at a luncheon, and by adjournment of the Saskatchewan Association gave a banquet, having among their guests Premier Dunnington, Hon. S. J. Latta, Mayor Mason and other prominent citizens of the city and province.

Honor Brave Men

Street in Winnipeg Is Named Valour Road in Honor of Three Heroes

Winnipeg.—Brave deeds and brave men were honored here in the dedication of "Pine Street," formerly called "Pine Street," on which three heroes, two of whom gave their lives for their country, and all of whom gained the highest military award—the Victoria Cross—lived before the war. The men honored were: Sergeant Major Frederick W. Hall, Captain Robert Shankland, and Sergeant Leo Clarke. Captain Shankland was the covered hero in 1917 at Gravenstede Ridge, in front of Passchendaele; Sergeant Clarke, at Pozieres Ridge in 1916, and Sergeant Major Hall in the memorable battle of Ypres. Clarke and Hall were killed in action, the latter while rescuing a wounded comrade.

Soviets Remove Restrictions

Communists May Now Inherit Fortunes Without Limit

Moscow.—The Soviet Government made a distinct departure from doctrine of pure Communism by admitting the law which set the legal limit for inheritances in Russia at \$5,000. Henceforth Russians may inherit fortunes without limit.

In spite of the government's severe opposition to private trade, many Russians in recent years have accumulated fortunes but have withheld them from investment in internal enterprises, the government thereby losing the benefit of active capital. It is to remove this condition that the new measure was introduced.

Fix Indemnity For Invasion

Greeks Should Pay Bulgaria About \$10,000,000 Is Decision of League

Sofia.—The special commission sent to the Macedonia frontier to estimate damages caused by the Greek invasion of Bulgaria territory and the occupation of Petrich and ten surrounding villages has fixed upon \$10,000,000 leva as indemnity. Official information has been forwarded here by the committee, which will report details of the damages to the League of Nations. (A leva normally is worth about 18 cents, but under the present rate of exchange its value is slightly less than one cent.)

A STATE BANQUET TO MARK SIGNING OF LOCARNO PACT

London.—The Locarno pact will be debated in the House of Commons this week preparatory to its ratification. Preparations for the signing of the agreement in London, December 1, are well advanced. It is understood the British Government already has sent invitations to the statesmen and officials who took part in the negotiations at Locarno and also to their wives.

The occasion of the signing of the Locarno pact is to be made as imposing as possible. King George and Queen Mary will give a state banquet in the palace on the evening of December 1. About 60 guests are expected to attend. The banquet will be presided over by Foreign Minister Stresemann, of Germany; Benito Mussolini, the Italian premier; M. Vandervelde, the Belgian statesman, and British cabinet members, diplomats accredited to the court of St. James and other political leaders.

The banquet, it is reported, will be served in the principal state dining room of the palace and will be one of the most magnificent functions ever held in London. The famous royal pipe, which is of almost incalculable value, will be displayed, and the banquet room and other apartments of the palace used for the occasion will be sumptuously decorated.

No Embargo On Wheat

Vancouver.—Estimates made by the grain trade here place the amount of damp or "tough" wheat at sixty per cent. of the present westward movement, but railway officials believe that the situation does not warrant the placing of an embargo on wheat shipments to this port.

Alberta Rhodes Scholar

Edmonton.—Clarence Sutherland Campbell, B.A., of the University of Alberta, an Edmonton man, has been awarded the Alberta Rhodes scholarship for 1925.

Great Force Against Bolshevism

Women's Institutes of England Combat Red Influence

Ottawa.—The women's institutes of England are a great force for good, bringing out the best that England stands for, and are a great force against Bolshevism, declared Mrs. Jean Muldrew, of Ottawa, addressing the eleventh annual convention of the women's institutes of Eastern Ontario here.

Mrs. Muldrew recently returned from England, where for a year and a half she did specific work for the department of immigration. The speaker stated that it was her impression that much good might be attained through closer cooperation between the women's institutes of Canada and those of England.

Honor Brave Men

Street in Winnipeg Is Named Valour Road in Honor of Three Heroes

Winnipeg.—Brave deeds and brave men were honored here in the dedication of "Pine Street," formerly called "Pine Street," on which three heroes, two of whom gave their lives for their country, and all of whom gained the highest military award—the Victoria Cross—lived before the war. The men honored were: Sergeant Major Frederick W. Hall, Captain Robert Shankland, and Sergeant Leo Clarke. Captain Shankland was the covered hero in 1917 at Gravenstede Ridge, in front of Passchendaele; Sergeant Clarke, at Pozieres Ridge in 1916, and Sergeant Major Hall in the memorable battle of Ypres. Clarke and Hall were killed in action, the latter while rescuing a wounded comrade.

Soviets Remove Restrictions

Communists May Now Inherit Fortunes Without Limit

Moscow.—The Soviet Government made a distinct departure from doctrine of pure Communism by admitting the law which set the legal limit for inheritances in Russia at \$5,000. Henceforth Russians may inherit fortunes without limit.

In spite of the government's severe opposition to private trade, many Russians in recent years have accumulated fortunes but have withheld them from investment in internal enterprises, the government thereby losing the benefit of active capital. It is to remove this condition that the new measure was introduced.

Imperial Trade Allied With Empire Settlement

Canada's Food Controller, During War Says "Trade Follows the Flag"

Vancouver.—"What war in British Columbia should grapple with, is, in my mind, how are we to help the empire and ourselves by getting ready and having a policy, plans and organization to make care of the people who want to come here to settle and be producers," said H. B. Thomson, food controller of Canada during the war, in an address to the board of trade. Mr. Thomson recently returned from England, and as a leading economist of the country, his remarks were listened to with keen interest.

Organizing in Victoria

Branch of Canadian Ku Klux Klan Has Been Started

Victoria.—The Times says: "Organization of the Canadian Ku Klux Klan has started in Victoria." Captain V. B. Laycock, D.S.O., one of the leaders to the movement on the mainland, arrived from Vancouver Thanksgiving Day and at once started organization of the group. The group is a branch of the Canadian organization which has its headquarters in Shawsheen Heights, Vancouver.

"Local Klansmen will wear the full hooded robes and take their oath under the burning cross."

Walked Across Canada To Find Work

Vancouver.—After walking from St. John, N.B., to winter in Vancouver, Mr. Harry Henry Begood, who is now wandering how much further they must tramp before finding work as cooks, their chosen calling. The couple plan to commence a return trip across Canada next spring.

SAYS BRITAIN IS WORKING FOR EUROPEAN PEACE

Capetown, South Africa.—The attitude of the British Dominions to the Locarno pact was dealt with by General Jan Christian Smuts in a speech before a meeting of the League of Nations Union here, when he declared that whatever their opinion might be about the policy of British adherence to the treaty, they should recognize, with pride, that Britain, in accepting the dangerous obligations of the pact, had no end of her own to serve. She was acting, he said, with a single eye to the future and for the peace and welfare of Europe, and that from her viewpoint it might be better to keep out of that entanglement. The British Empire had not acted with a united front in negotiations leading up to the signing of the pact and he doubted whether all the Dominions were likely to adhere to it.

The British Empire, with a united policy, which all parts had helped to shape and could approve and endorse, would be a great power in the world, General Smuts said.

Railway Would Solve Development Problem

Hudson's Bay Area Rich in Iron Ore

Says W. T. Curran

Winnipeg.—W. T. Curran, Montreal, a fellow of the Royal Geographical Society, who has admitted authority on the Hudson's Bay area, in an interview here, declared as soon as the Hudson's Bay Railway was completed, the development problems of the Hudson's Bay area would solve themselves. "There are sufficient iron ore deposits above the water level on Nastopaka Island, east of the Bay, to supply the demands of the North American continent for 60 years," he said.

Imperial Trade Allied With Empire Settlement

Canada's Food Controller, During War Says "Trade Follows the Flag"

Vancouver.—"What war in British Columbia should grapple with, is, in my mind, how are we to help the empire and ourselves by getting ready and having a policy, plans and organization to make care of the people who want to come here to settle and be producers," said H. B. Thomson, food controller of Canada during the war, in an address to the board of trade. Mr. Thomson recently returned from England, and as a leading economist of the country, his remarks were listened to with keen interest.

Imperial trade, Mr. Thomson pointed out, was very closely allied with the settlement for "trade follows the flag."

THURSDAY, NOVEMBER 15, 1923

LOCARNO AND TRADE

This export trade—selling abroad and buying abroad—is now in sight as a result of the elimination of the war menace through the signing of a new security pact. This element of security leads to the hope that the nations will begin once more to do business with each other. Britain begins to see daylight.

There is a point here for those Canadians who think that we can make ourselves rich by depending on the home market. Canada is a world trader because she is a heavy producer of surplus products and the real basis of prosperity for this country is in being able to sell our products abroad at the greatest possible profit. The silliest argument used during the late election campaign was the one to the effect that Canadians were making themselves poor because they were not buying everything from themselves.—Manitoba Free Press.

Wall Street was once a cow path. Which is one reason why it is crooked.

Denver man says there ought to be a law authorizing the death of persons who would be better off dead than alive. We suggest that the first victims be those who advocated the law.

In his recent expedition to central Asia, Roy Chapman Andrews found dinosaur eggs 10,000,000 years old. But why did he have to go to Asia to find eggs that old?

The plumber who charges up for the time he takes to go back after his tools has nothing on the Sacramento undertaker who had to go back after the hearse.

Key West, Florida, is said to be the only place the Weather Bureau has never recorded a frost. Horace Greeley should have said, "Young man, go to Key West!"

Give thanks for all that you have, and then add a post script giving utmost thanks for a lot of things you don't have to have.

It's getting fashionable to be fat. Which is another way of excusing ourselves for eating chocolates and potatoes.

If statistics are true, the number of lawbreakers is getting almost equal to the number of lawmakers.

In its final analysis everything that is wrong with the world may be attributed to some individual.

Most people find, no matter how good their digestion, that it is difficult to swallow insults.

Dealing in futures is spending your next month's salary.

CHANGE NEEDED

A motion is on foot to ask the Dominion government to change the present practice of holding Thanksgiving day in conjunction with Armistice day, the great war veterans especially requesting that Armistice day be celebrated as such.

There can be no doubt that to men who served in France and especially those who were in the field when cease fire was sounded on November 11, 1918, Armistice day holds a meaning and a special significance that can never be fully appreciated by those who stayed at home, and the mere blowing of whistles and ringing of bells at 11 o'clock on that anniversary each year can hold no comparison with the actual blowing of "cease fire" all along the line which ended the eternal din of warfare, and to those who went through the mill in France and Flanders it is not to be wondered that the desire to keep the day entirely separate and celebrate it for the special significance it commemorates should exist.

On the other hand Thanksgiving day has been a national holiday for many years and usually held in November, so close to Armistice day that there is not room for both holidays to be properly observed, and it was with the best of intentions that the practice of celebrating both events on the same day came into practice, for certainly no better day on which to give thanks could occur in the whole year than

Winter Time is Carnival Time in Banff

Banff in winter time is fairyland. Shafts of the sun strike the white snow-covered mountains and valleys of the Canadian Rockies, changing them into a landscape of flashing iridescence. Colors—blue, red, green and purple—dance over the scene, as gaily costumed devotees of the snow shoe, the skate and the ski move in the midst of the great outdoors.

Fancy skaters swing gracefully into intricate figures on the rinks. Ski jumpers thrill the spectators with their marvellous leaps through the air from the ski jump on the top of a nearby mountain. Skiers dash down the Bow River behind feet mountain ponies. Blanket-coated lands. In the evening, the brilliant scene is softened by the silver gleam of the moon.

Winter time is carnival time in Banff. February 8rd to

17th has been set for the 1926 Winter Carnival, and Mrs. Boyd Gardom has been chosen as the fair Queen. A splendid palace of glittering ice, sparkling with myriads of bright colored electric lights is being built for the chosen beauty. With true regal pomp and splendor she will be crowned and seated on her throne as the culminating triumph of the carnival.

Trains pull into the station at Banff. Passengers on their way west stop off to disport themselves in the snowy, gay little town. Passengers on their way east delay long enough to see the famous ski jumpers breaking world records. Passengers from both east and west with Banff as their objective, and snow shoes, skates and skis in their luggage, hurry to attend the festivities in honor of the carnival queen.

Change Needed

(Continued from Page 4)

that on which hostilities terminated in the greatest war in history.

The difficulty which has arisen is that the day which it is sought to commemorate in the vast majority of instances is not celebrated on that day at all, but on the Monday nearest it. This is a concession made to commercial travellers who wish to spend their Thanksgiving days at home. Naturally, it is impossible to please everybody. But there can be but little doubt that the special significance belonging to Armistice day suffers when it is celebrated on any other day.

Either one or two things should be done, either combine the two days and celebrate them on November 11, irrespective of what day of the week it falls on, the same as any other holiday, or hold Thanksgiving day so far apart from Armistice day that there will be no overlapping.—Youngstown Plaindealer.

Taking the North American moose over to Europe with a view to acclimating it in Northern Europe is in part the aim of Heinrich Carl, Count Schimmelmann, one of the largest land owners in Denmark. The Count and his Countess were taken to the Casing river district, where they spent three weeks. During this time they walked an average of fifteen miles a day for twenty days, covering three hundred miles on foot, not reckoning the distance they traversed in canoe. They went to the woods of Northern Quebec for another shot at the elusive moose before sailing for home on the Canadian Pacific liner Montclair.

A recent epidemic of motor accidents, five of which occurred in one night, though luckily none of the drivers proved to be fatal, elicited the following comments from the Montreal Star: "That five drivers of automobiles should drive their cars into moving trains within a period of one hour in a city in Canada would seem to indicate that carelessness is the main cause of accidents. The location of level crossings is rather unfortunate, and is clearly indicated at a distance of 100 yds. even a fast driver ample time to stop. At many such crossings the gates are down, and the trains are approaching. The level crossings gates are let down. Some are open—these almost entirely in the country districts. But despite all the warnings, the signals, and precautions, accidents continue to happen at level crossings with an alarming persistence. In some incidents the driver is almost lucky, though the drivers who are killed or maimed do not seem to make an attempt to defy all attempts to ensure caution." The paper calls for cancellation of driving license in cases like the above.

The Question Is

Have you paid your Subscription to The Coleman Journal for 1925? A prompt renewal will be appreciated. Thank you.

A Great Teacher

ADVERTISING conducts a public school. Its pupils are all the readers of the home paper---in short, the whole buying community.

ADVERTISING teaches that loyalty to the home merchant brings real returns in better service and better values. "It's a lesson that requires the repetition afforded by the weekly arrival in the home of "The Journal."

You can teach the public to rely on your Advertisements as safe guards to economy and satisfaction in shopping. Moreover, people appreciate being asked for their patronage.

WORLD HAPPENINGS
BRIEFLY TOLD

Reports being prepared by J. D. Roper on Canadian expeditions to the Arctic, will be complete in 1926.

Rev. John Carter, 64 years of age, son of John Carter, Toronto, has been elected mayor of Oxford.

H. J. Browne, meteorologist of Washington, D.C., predicts 1926 will be a year without a summer with agriculture almost impossible.

The new Canadian Red Cross Hospital was formally opened at Englehart, Ont., by Hon. Lincoln Goslin, provincial secretary.

More than 400,000 people travelled by water between Canada and the United States during the year ending June 30th, research bureau shipping board records reveal.

A memorial tablet to the late Sir William Price was unveiled at the Armistice memorial service held in St. James' Anglican Church at Kenogami, Nov. 8.

With the 1925 season of navigation nearing an end, statistics compiled at the port of Quebec show that 78,288 passengers were landed up to Nov. 7, bound for Canada and the United States.

Sir Horace Rumbold, British ambassador to Madrid, will head the commission of the League of Nations, which will inquire into the reasons for the fighting between the Bulgars and the Greeks recently.

The Manitoba Power Company will spend \$2,600,000 in new equipment and transmission lines following successful negotiations for supply of power to the Manitoba Public and Paper Company with a rate of 1.5¢.

The "death ray" inventor can make music come from beams of light. H. Criddle Matthews has shown how his luniphone works. He also has a device for advertising in colors in the clouds.

After working on his invention for sixty years, John Smith, engineer of Winnipeg, claims to have perfected a "stationary engine capable of controlling and producing its own, self-maintained power." He has a "perfect" model on demonstration.

Vice-Admiral Sir Roger Keyes, commander-in-chief of the British Mediterranean fleet, was slightly injured when an aeroplane in which he was riding crashed into the sea. The pilot and another officer in the plane suffered slight cuts and bruises.

Big Slump In Shipbuilding

Industry Suffers Most Decided Drop Since Great War

Shipbuilding throughout the world suffered its most decided slump since the war during the last summer, the department of commerce announced recently.

Reports for the third quarter of 1925, ended Sept. 30, received from Lloyd's Register, showed a drop of more than 150,000 tons.

Motor vessels declined 40,000 tons during this period, construction of these classes of ships, as was stated, has been decreasing steadily.

Construction in this country dropped 22,000 tons, while the decrease in Great Britain and Ireland was reported to be \$4,000 tons. The largest decrease was reported from Germany with a 100,000-ton drop. France declined 19,000 tons and Denmark 7,000 tons.

Italy and Holland showed the only increases in work started during this period.

May Be Important Discovery

Cancer Scourge Is Cured By Lead Says Liverpool Professor

Selecting a meeting of the Toronto Academy of Medicine for an announcement of world-wide interest to the medical profession and victims of cancer, Prof. W. Blair Bell, of Liverpool University, and honorary director of the Liverpool Cancer Research Institute, told leading physicians of the city of the successful treatment of the dread disease by the chemical agent, lead. He cited several instances in which remarkable success had been achieved, and assured the members of the academy that 50 or so patients were believed to be well. Anglo-Saxons accounts registered the highest total, while savings deposits by Japanese increased more than \$1,000,000 over the previous year.

Many Savings Accounts
There were 101,516 savings accounts in Hawaii banks during the past year, totalling \$21,508,321.75. Anglo-Saxons accounts registered the highest total, while savings deposits by Japanese increased more than \$1,000,000 over the previous year.

Remember there is a limit to human endurance. The friend who stands up for you may live to the course of 112 and sit down.

Wide Phone Service

Long Distance Service in Alberta Has Been Made Continuous

With due ceremony, the inauguration of the continent-wide telephone service from Alberta was celebrated recently, when Governor Brett of Alberta conversed over the long distance telephone with state officials in the states of Montana, Colorado and Arizona, and with Chief Justice Anglin of Ottawa, Ontario. The inauguration of this service, by which Alberta telephone subscribers will be able to converse with any point in the United States and with many points in Eastern and Western Canada and on the coast, was made possible through the co-operation of the Mountain States Telephone Company with the Alberta Government Telephones. Repeaters have been installed at Lethbridge, Calgary and Medicine Hat, and copper circuits set up from Lethbridge to the boundary of Montana, linking up with copper circuits extended north from Shelby, Montana. This has made possible the connection with the transcontinental system in the States.

In connection with the historical step taken by the Alberta Government Telephones, it is interesting to note that long distance service in the province has grown from 1,000,000 to 2,500,000 calls in the past ten years, and that at that time the revenue from long distance service has grown from \$283,300 per annum to over \$1,000,000 per annum.

The first commercial call over the new universal system was given from Edmonton, when a resident of Edmonton conversed with a friend in Minneapolis, Minnesota.

Advance in Medical Science

Toronto Doctor Announces New Serum For High Blood Pressure

A serum which may reduce the mortality of high blood pressure was described by Dr. F. H. G. Starr, of Toronto, Canada, in an address before the clinical congress of the American College of Surgeons, Philadelphia.

Dr. Starr said that William J. McDonald had been working on the serum in the research laboratories of the University of Toronto for some time, but that it had not yet reached a point to permit a detailed description or an optimistic statement of its probable efficacy. He said the serum was a liver extract. High blood pressure, he explained, usually was due to hardening of the arteries, which is induced by an inflammation, possibly of germ origin.

Edmonton Attains Majority

Was Officially Created a City on Nov. 7, 1904

Edmonton became an adult among cities on Nov. 7.

Just 21 years ago, on November 7, 1904, Edmonton was officially created a city. Since that date the population has grown from 7,500 to 65,278.

There are 20 newspapers circulating in the city daily, as compared with one then; 13,484 telephones in use where 450 supplied the baby city.

The fur trade and the Klondike rush put the city on the map in the early days.

Now it is the legislative and educational centre of the province and the distributing point for Central and Northern Alberta, as well as the gateway to the Arctic fur lands.

New Colonization Plan

Community Move of British Settlers to Nova Is Proposed

While the department of immigration is working with the overseas settlement board on a full cooperative plan for the purpose of increasing immigration to Canada from the United Kingdom, a deal was made at the department of any personal knowledge or official connection with a new scheme of colonization, reported from London, calling for the migration of 50,000 families to the Dominion within a period of five years.

These families, according to the cable report, would be settled on Canadian farms in communities, and not in colonies.

Aches of Climber Scattered

From the summit of one of the highest mountains in the lake district, north of England, the cremated ashes of Seymour Gubb were scattered to the wind as a fitting funeral rite for a mountain climber. Mr. Gubb, who for 33 years was headmaster of Taunton's School, Southampton, has been noted as a mountain climber for many years. Fellow climbers conducted the funeral service.

She: "My father gives me a dollar every birthday. I have now eleven." He: "How much does he still owe you?"

Many a woman uses make-up merely because she hasn't the cheek to do without it.

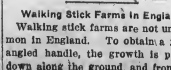

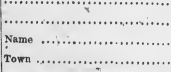

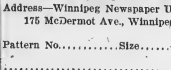

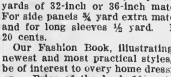

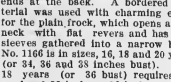

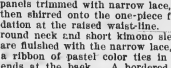

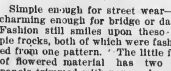

A Western Editor M.P.

Cameron R. McIntosh, R.A., Liberal member for North Battleford. He is the only editor which Western Canada is sending to Ottawa.

Mr. McIntosh publishes three weekly newspapers, The North Battleford News, The Battleford Record and the St. Walburg Times. Mr. McIntosh has been an active member of the Saskatchewan Press Association since it was first formed, and on the executive since it had an executive, serving several terms as president. He was one of the Saskatchewan editors who went over to the European continent with the Canadian Weekly News, the first Canadian in 1924 and were honored in most of the capitals of Europe, and entertained by royalty in Great Britain and Belgium, and by Marshal Poch in Paris. He is also a member of the Canadian Club member, organizer and first president of the Canadian Club of the Battleford, and for two years represented Saskatchewan as vice-president on the national executive of the Canadian Clubs of Canada.

Mr. McIntosh is a member of the Canadian Club of the Battleford, and for two years represented Saskatchewan as vice-president on the national executive of the Canadian Clubs of Canada.

Surgeons Revert To Old Practice

Doctor at Johns Hopkins College Tells How Injections Purify Blood

Modern surgeons have partially reverted to a practice of the Dark Ages, when blood letting and leeches were considered the most efficacious of remedies.

The medical wizards of those ages believed the blood stream carried all diseases. When a man in those days had a fever, a cold, or affliction of any sort, a "chirurgian" was called in and his patient was at once bled.

But, although modern science has returned in part to this practice it is teaching also that the blood stream can be purified with powerful injections—known as glymedides.

All this was brought out by Dr. Hugh M. Young, of Johns Hopkins Medical College, in explaining the work undertaken by the American College of Surgeons in the formation of a committee on antisepsis, of which Dr. Young is chairman, to gather material for a vast symposium on modern antiseptic surgery.

This work is undertaken as a memorial to Lister, the hundredth anniversary of whose birth will be celebrated April 15, 1927. Lister, working on Pasteur's theory of the germ origin of infection, by his antiseptic discoveries, laid the foundation for modern surgery.

Circles Globe In Small Boat

"Libary Navigator" Travels 38,000 Miles In Homemade Craft

Re-circumnavigation of the globe in a 34-foot sail boat was accomplished by Harry Pidgen, 54 year old photographer, known to many as the "Libary navigator." He made port at San Pedro, Cal., after travelling 38,000 miles in his homemade cockpit sail craft, the Islander, since he set sail from San Pedro, November 13, 1921.

The Islander traversed "across notorious for bad weather. Leaving San Pedro, he went to the Marquesas Islands in the South Sea to Torres Straits, across the Indian Ocean to Mauritius and southwest to Capetown. Then she made St. Helena and crossed the Atlantic to Panama. She left the coast of America August 1.

Pidgen was dubbed the "Libary navigator" because of the unusual manner in which he obtained seafaring knowledge. With books from a branch library here, he spent much time he could spare from the construction of the Islander in studying navigation. All his information about sailing was acquired in this way.

Trying To Make Easter Fixed Date

Second Sunday In April Each Year Being Considered

It remains only for the international conference to put into effect in 1928 the fixing of the second Sunday in April as Easter Sunday every year, according to Moses B. Cotworth, director of the International Fixed Calendar in Toronto, in conference with board of trade officials relative to the furthering of the 15-month-year idea, with its four weeks in a month and Leap day features. Mr. Cotworth is a Vancouver, B.C., man, but has spent most of his time of late in London, where he acted as expert for the League of Nations in the subject of international reform of the calendar.

While the change in regard to Easter Sunday and its contingent movable festivals affects only the Christian nations, Mr. Cotworth regards it as a step in the eventual adoption of the whole world of the fixed calendar idea.

One Ticket For Fourteen

Mother Had Proof That Thirteen Boys Were All Under Five Years Old

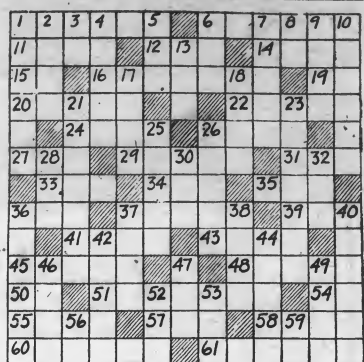

A woman on a Burlington train near Jewell City, Mo., the other day found Mr. Frank Scott had only one ticket for herself and thirteen children. The children occupied five double seats. "Are these all your children or is it a ploy?" asked the conductor. They were all the children of Mrs. Scott and she had the family Bible in her suitcase to prove it. The Scotts have been married less than ten years and have sixteen children, all boys. There are five sets of twins. The thirteen above mentioned were all under five and could ride free. They were being taken by their mother on a visit to relatives in Canada.

Canadian Ayrshires Win Prizes

A cablegram to the Canadian Ayrshire Association of Great Britain and Ireland, announces that Ayrshires took six champion cups at the recent Royal Dairy Show, London.

It was a bit who said that "any free citizen can do as he pleases, except for his conscience, his wife, his landlord and his neighbors."

OUR CROSSWORD PUZZLE

- Horizontal
- 1—To drive out from.
 - 6—Clutches.
 - 11—An animal.
 - 12—Girl's name.
 - 14—A cleansing agent suitable in water.
 - 15—Hesitate in speech.
 - 16—A goddess of retribution.
 - 19—Virtue of compass.
 - 20—A flower.
 - 21—Power.
 - 22—Dry.
 - 23—To perform.
 - 24—Male descendant.
 - 25—Next in order after the eighth.
 - 26—A secretion from inflamed tissues.
 - 33—One of the stages of life.
 - 34—Large container.
 - 35—Alternative.
 - 36—Part of verb to be.
 - 37—Luckwarm.
- Vertical
- 35—Color.
 - 41—By.
 - 42—Lead cover (pl.).
 - 43—Punishment.
 - 45—Pours.
 - 46—Man's nickname.
 - 47—Repeated as a lesson.
 - 48—Part of verb to be.
 - 49—A part of speech.
 - 50—Gone by.
 - 51—A melody.
 - 52—An aromatic substance flowing from certain plants and trees.
 - 61—a disease.
 - 62—Vertical.
 - 63—Try of sheep.
 - 64—Tune.
 - 65—Negative.
 - 66—Interior.
 - 67—Thigh of an animal.
 - 68—An aeriform fluid.
 - 69—Property.
 - 70—In this manner.
 - 71—Shallow dishes.
- 10—Hasten.
- 11—Lair.
- 12—Irradiate.
- 13—A constant irritating desire.
- 21—Touching.
- 22—To abandon.
- 23—One who dives.
- 24—A garret.
- 25—Propel.
- 26—Short sleep.

- 31—Appl.
- 32—Nobleman.
- 33—A model image.
- 34—Immense.
- 35—Sewant.
- 36—A ruler.
- 37—Man's name.
- 38—Article (Span.).
- 39—Royal Academy (abbr.).

Keep Tenth Commandment

One Reason Why Canada and U. S. Live Peaceably

Canadian officials have issued figures on the automobile tourist influx into the Dominion during the summer, setting forth that 2,000,000 automobiles crossed the line, carrying 9,000,000 travelers. The astonishing fact is that these 9,000,000 strangers, chiefly from the States, equaled in number the total population of Canada.

That is, sightseeing Americans do not temporarily depopulate the population of our northern neighbor. The migration was made without difficulty. The visitors spoke the same language, ate the same food; near the border United States currency was accepted without question. A common language has much to do with the ease with which tourists are made at home.

The chief reason for this freedom of travel is that Canada and the United States are free from jingo rivalry. Politically, Canada and America keep the Tenth Commandment. If European nations would not "covet thy neighbor's goods" many munition factories would go broke.—San Francisco Bulletin.

High Standard Of Living

Conditions of Life in United States Highest in History Says Hoover

Material conditions of living for the people of the United States during the last year have been the "highest in all history," Secretary of Commerce Hoover declared in an economic review made public as part of the annual report of the commerce department.

Factors listed by the secretary as contributing to this condition included a practically complete absence of unemployment, high wages, efficient railroad operation, an equitable balance of prices as among the greater producing groups of the population, and a gradual return to stable currency and normal business operations among the nations abroad.

Novelty In Radio Reception

According to recent reports, the city of Rome offers the newest novelty in radio reception, in the form of "penalty" for the loud radio listening stations. For the equivalent of one penny, a pair of phones are placed on the head of the listener and he is allowed to select his own station. There is but one master receiver and many sets of phones, but the listener must be content with whatever the operator tunes in.

Broadcasting Duck Calls

Oakland, Calif.—A device for broadcasting duck calls has been invented by V. O. Hatt, president of the Valhalla Gun Club. Radio apparatus has been installed in the club's preserves, and with the opening of the shooting season in October, an alluring "quack, quack, quack" was scattered among the duck blinds.

Need Alaskan Base For Polar Flights

Useless to Attempt Trip Otherwise Says Veteran Arctic Navigator

Alaska can be successfully utilized in Polar exploration, providing the flights are attempted from a large base in Alaska, according to Captain Bob Bartlett, veteran Arctic navigator, who was one of the late Commander Peary's party when he made his dash to the Pole in 1909.

"It is useless to attempt to fly across the vast Arctic regions adjacent to the Pole, with only a few months preparation and with small planes," said Captain Bartlett. "And personally, I don't believe it is wise to expend large sums for expeditions of this nature that hope to make the flight from such places as Etah. There is one place where these flights can be started, and that is off the Alaskan coast and in the Polar Basin."

Find Valuable Collection

Chest of Drawers in Mayfair Yields \$750,000 in Stamps

A collection of postage stamps hidden in an old bureau in a Mayfair home in London, sixty years ago has been, accidentally discovered, and found worth \$750,000. The original value was \$150. Search for a lost jewel case led to unearthing the famous collection of stamps. Some of the stamps were never before seen by collectors. The most interesting are two sheets of halfpenny Ceylon stamps, issued in 1858—the only sheets of these stamps existing. The grandfather of the owner's husband collected the stamps when he was young. Collectors from many parts of Europe will attend the sale of the collection.

Wonderful New Device

A demonstration of a device for the phonographic recording of heart sounds, which is expected eventually to save thousands of lives annually, by making possible improved methods of diagnosing heart diseases, has been given by the Columbia Phonograph Company, New York. It is possible to record sounds which ordinarily are so faint as to escape detection by the human ear.

A giant salamander may live more than a half century old.

H. C. McBURNEY

Druggist and Stationer

Coleman, Alberta

LOCAL, PERSONAL AND GENERAL NEWS

Daniel May, an old timer in The Pas, died at Vancouver on Sunday last, aged 65 years. He was a resident of Blairmore for over 15 years, and leaves a widow and four sons, James May of Los Angeles; Jack May of Hillcrest; A. S. May of Blairmore; A. May of Bellevue, and one daughter, Mrs. Finlay McLaren, of Blairmore.

Coleman people will be honored with the sweet singing voice of Mrs. Morgan, of Blairmore, who is generously contributing to the Community Concert program.

A mine explosion at one of the Drumheller mines took a toll of three lives and entombed three miners on Friday of last week. Every effort is being made to reach the trapped men. One of the miners killed, Mike Gilday, was formerly a resident of Bellevue.

A hard times dance took place in the K of P. hall on Wednesday evening and was well attended. Many unique-holo costumes were in evidence which gave the desired effect to a gathering of this nature. B. P. O. E. Lodge No. 117 will meet in regular session in the L. O. O. F. hall on Friday evening of this week. Every antlered head in Coleman is requested to appear at 8 p. m.

Mr. Bud Clarke is around again after being an inmate in the local hospital for a couple of weeks.

Mr. D. Davies, of Edmonton, sent us a postal note for \$2 last week and said he wanted The Journal to continue coming.

Mrs. Luke Lindoe held her post-nuptial reception on Thursday afternoon of last week. Her mother, Mrs. D. D. McCallum, of New Dayton, received with Mrs. Lindoe, Mrs. J. O. C. MacDonald and Mrs. H. C. McBurney poured tea and Mrs. J. A. McConaghy and Mrs. T. B. Smith cut the ices. The others assisting were Misses Robertson, Walker, McDonald and McKay. Many ladies attended the reception and enjoyed the friendly hospitality of the hostess.

Your favorite singer, Miss Hulme, of Bellevue, has kindly consented to sing for the Community Concert on Wednesday, Dec. 2nd, at the Grand Theatre.

The ladies of St. Alban's Church wish to thank all those who so kindly contributed to the "Tea and Sale of Home Cooking," which resulted in a social and financial success.

The Bassano Curling Club at a recent meeting set their fee at \$15, the same as last season.

Now is the time for merchants to commence their Christmas advertising. There is only five weeks for Santa Claus to fill his stockings.

The secretary of the Coleman Curling Club has this week mailed a postcard to all former members of the club and many prospective curlers, and requests that the cards be returned to him as early as convenient indicating whether you are going to curl this season. Do it NOW!

The weatherman is at present making up for his previous bad behavior. During the past week or two bright days with just a touch of Jack Frost in the air have been the rule.

The winners at the Rehearsal whist drive held last Saturday were: 1st Mrs. J. Richards, 2nd Mrs. J. Muir, gentleman Mr. W. Cousins 1st, Mr. T. Higginbotham. As a special feature a novelty spotlight dance was held, the prizes going to Miss Agnes Kellock and Mr. Vincent.

Miss Chrisalie Allan entertained in honor of Mrs. Littlefield, nee Lucy LeGal, on Tuesday evening. It was a unique party as all the girls present and the young man had been in the same class at school with Lucy. The evening was spent in jolly reminiscence and oh! what stories and incidents they recalled. The girls got around the piano and sang from the "Little Red School House" to the latest hit. Dainty refreshments were served by the young hostess.

Steve Junarchik met with a nasty accident while engaged in working in the International north mine pillars Tuesday afternoon, when falling rock broke several of his ribs and severely cut his head. He was taken to the hospital where his injuries were dressed and he is now on the highway to a complete recovery.

Miss Jean Pattinson, Sixth street, entertained a number of her young friends at a birthday party at her home on Wednesday evening.

Local merchants should think twice before spending fifty or a hundred dollars in calendars and other freakish forms of advertising novelty. The large retail and mail order houses in the cities never spend a cent on these questionable methods. It is a safe plan to follow the lead they give in this matter as they spend hundreds of thousands of dollars annually to secure business and it is all spent for newspaper space and direct to customer advertising.

According to the Calgary Albertan two popular Coleman girls, Miss May Muir and Miss Margaret Allan, are mentioned as likely members of the Calgary Patricia ladies hockey team this season. Both these young ladies were members of the Coleman Shamrocks last year and are now attending Normal in the City of the Foothills.

It required twenty five tables to accommodate Coleman Elks and their families at the whist drive and dance Friday evening of last week. Mrs. R. G. Powell and Mrs. Harry Antel won the honors for ladies, and Mr. J. McLeod and Mr. J. Houghton the gentlemen. After refreshments dancing was enjoyed until 1 a. m.

Mrs. Russell Ferguson successfully underwent an operation for appendicitis in the local hospital on Wednesday.

Some local curlers are voicing complaint because the fee has been advanced from \$10 to \$12. The Journal has been trying to locate a curling club in Alberta that has a fee of less than \$12. Blairmore up until two years ago charged \$15, and \$17 for curlers using club rocks, and they built up a surplus of between \$300 and \$400. Since reducing the fee to \$12 they have all but used up this nest egg as they find their expenses cannot be met from a \$12 fee. The Coleman club had a deficit last year, and it is doubtful if receipts this year at \$12 per member will balance expenditure. Time will show that \$15 is the required fee in order to properly carry on the affairs of the club.

The Knights of Pythias held a competition of putting on ritualistic work in their hall on Thursday evening last. J. R. Wood won first in the Lesson of Friendship, F. J. Lote first in Prelate's Charge, D. Gillespie secured first place in Pythagoras, while J. R. Wood and F. J. Lote were equal in the Monitor. After the competition was concluded the Sisters served dainty refreshments downstairs.

A general meeting of the St. John Ambulance Association will be held in the Central School on Sunday, November 22nd, at 2 p. m. All members are requested to attend. To anyone who intends taking part in the work of the Association this year, a hearty invitation is extended.

One long whistle outnumbered three short ones at the local mines last week and also to date this week. So far we have not heard anyone objecting to the increased employment.

Say It With Flowers
